CHEVROLET

Quality
determines
whether the price
is economical

Highest quality materials and construction alone give you fine car performance over a long period at low cost for upkeep.

Only the most modern body design and a finish of permanent luster can keep your car looking well for years.

And that's what you get in a Chevrolet! Quality design, quality construction, quality appearance—and many quality features the equal of which you cannot find in any other car at Chevrolet's price. You get Duco finish in smart colors. You get Fisher bodies on all closed models. You get smart, modern, snappy good looks plus the power, permanence, and dependability that make Chevrolet meet your highest ideals of economy. Come in—let us show you why half a million Chevrolets were bought last year.

New Settlers Bring New Land Under Plow

The very large areas of new land broken by settlers brought out by the Canadian National Railways from Europe during the past two years was the outstanding feature of his recent tour of inspection through Western Canada to Dr. W. J. Black, Director of Colonization for the system. During his journey through the west meeting officials of his department and laying plans for next year's work, Dr. Black stated that he found, especially in northern Alberta, large stretches of tree land that had been cleared and brought under cultivation by the new settlers. "In fact," he said, "there has been no one year since before the war, when there has been so much land broken adjacent to our lines as this year." Speaking of colonization activities of the company generally, he said that business this year had been highly satisfactory showing an increase of over one-hundred per cent. in the number of people handled, the gratifying feature of the movement being the number of immigrants who are actually settling on land adjacent to the Canadian National lines. He stated that he had cov-

Eighth Fortnightly Prov. Crop Report

The weather throughout the province has been disappointingly hot and dry since the last crop report was issued two weeks ago, broken only in a few localities by brief showers, which in one or two cases have been heavy enough to be of some aid in the filling process of the wheat crop. The general effect of the continuance of the hot weather with lack of moisture has been to retard the filling process, and will result in the result in the reduction of quality and yield, but only to a limited extent. The weather is now cool and somewhat showery, which will be an aid to the later crops.

Generally speaking, the wheat crop situation is fairly satisfac-

tory, and now that the critical stage has been passed, the statement may be made with more or less assurance that there will be a good average crop of this grain, probably as large and possibly larger than last year. There can be no definite estimate, however, of the extent of the effect of the hot, dry weather until the separators are at work and the actual shrinkage which has taken place becomes known in the yields obtained. Throughout the most of the province the grain is believed to have stood the strain well, and especially is this the case with that on summerfallowing and breaking. The area of good crop is larger than last year, so that the general conclusion which may be arrived at for the present is that the wheat yield will be well up to last year's total, if not exceeding it.

Regarding plans for next year, the Director stated that the Canadian National is planning to develop its facilities for settling families on the land and that the prospects are that the movement in this connection will be heavier than ever before.

Ripley School Has A Splendid Record

Great credit is due the teacher, Mrs. R. W. Barrett, of the Ripley school for the honor won by her pupils.

Leena Olson passed Grade 9 with 71, at the same time making 100 in algebra, a feat last year only accomplished by 15 in the whole province.

Ward Barrett passed with an average of 72. Lee Olson was successful in five out of six subjects, and Nellie Curr passed in four out of six.

Two pupils wrote Grade 8 and both passed: Bernice Bell and David Curr.

Ripley is a school of 32 pupils and all have passed this year. This is a remarkable record considering that a change of teachers was made at the half-year.

Buffaloes to Be Sold At Wainwright

The rapid growth of the national herd of buffalo in Buffalo National Park, Wainwright, Alberta, forces the government to seek other means of reducing the herds to proportions that are with in the grazing capacity of the park, than that of shipping them to the wood bison range in the vicinity of Fort Smith. It has been decided to dispose of an additional 2,000 animals on the hoof, by tender, the understanding being that any animals so purchased will be slaughtered and the meat and hides disposed of by sale on the public markets. Last summer 1634 buffalo were successfully transported by the Canadian National Railways to the northern range, but this depletion of the herd was offset by the annual increase.

Correspondence

Mirror, Aug. 10th, 1926.

Mr. Editor:

Having read your editorial headed "A Rest Room" in your July 7th copy, we the members of the W. L. would like to correct a few of the statements you make. The W. L. is organized to benefit its members and the community in which we live. We have not opposed any movement that has been brought forward for the good of the community, and will do our share towards a rest room should the other organizations in town feel that they too could do their bit; but the W. L. home is not the place for this rest room. You speak of narrow-mindedness, selective class domination, these statements do not apply to the W. L. Any woman, whatever nationality or creed can join us without a question asked, and the minute she joins is eligible to all the benefits of the institution, and as our doors are open from 3 to 5 p.m. each Saturday each member is at liberty to go in for rest or otherwise.

We hope Mr. Editor and readers that this will give you a better impression of what the W. L. stands for.

Yours truly,
Mrs. W. C. McCormack, Pres.
Mrs. H. S. Oldring, Vice-Pres.
Mrs. J. F. Flewelling, Ex-Pres.

FORTY BABIES IN FAMILY BOX

ONE hears a lot nowadays about babies travelling long distances unaccompanied. Here are forty babies travelling without nurse or mother and they are all in one box. What's more, they are only a day old. Human babies wouldn't survive, but the sturdy little baby chicks in this photograph are representative of thousands constantly shipped from hatcheries to farmers all over Canada via Dominion Express in special boxes which enable them to make the journey in safety and with little discomfort.

Start the Children Right

In this column last week some emphasis was laid on the importance and value of developing habits of thrift, and in the concluding paragraphs parents were urged to encourage their children to start a savings account early in life, and even to provide the nucleus of such an account before the child was old enough to think and act for itself.

The writer's attention has since been drawn to a report on The Penny Bank of Ontario, a system created for the purpose of encouraging thrift on the part of school children in that Province, and thereby teaching in a concrete way the wisdom and great value of thrift and the habit of saving. The subject is surely important enough to warrant a further reference.

It is the aim of The Penny Bank of Ontario to provide for every child at school an opportunity on a stated day of each week to put small coins in a safe place and to prove to him or her how quickly a series of small amounts builds into a comfortable balance. From the report, to which reference has been made, it is learned that Penny Bank accounts in the public schools of Toronto now number 45,253, while the average school attendance is about 38,000. In other words, 75 per cent of the children are taking advantage of the service offered.

Some rather interesting facts are disclosed through this Penny Bank scheme, and two questions asked, based on the weekly reports, are: "Are the children in the schools gaining a just notion of the value of money?" "Is there a tendency among them to regard copper, nickel and ten-cent pieces as mere 'candy-feed,' as contemptible coins, as unworthy fractions of that precious metal, the dollar?"

Analyzing the depositors' names in Toronto schools in a given week, it was found that in the poorer districts the savers of the Penny Bank are accepted and appreciated to a far greater extent than in the more well-to-do districts, in one school in the heart of the poorest district, 45 per cent of the children present on October 27 had made deposits. On that same day in one school in one of the richest districts only 12 per cent of the pupils were depositors, while at another school in a rich district the figure was 11 per cent. Throughout the eighty-eight public schools in Toronto the average of depositors on October 27 was 27 per cent of the pupils present.

It may be true, and probably is, that many of the children in the better residential districts have savings accounts in the chartered banks. If so, the boy or girl is not likely to make a journey to the bank to deposit 25 or even 50 cents. He or she is more likely to wait until a dollar or more is accumulated, and meanwhile the small coins gradually fritter away.

As a writer in a Toronto paper points out, in commenting on this Penny Bank scheme, the training thus afforded is just as valuable for the child of a prosperous home as for the boys or girls of the poorest district. It may be even more valuable, since the son or daughter of the rich man is likely some time to have the handling of large sums of money. They cannot manage them efficiently unless they know the exact value of a nickel, unless they have learned the importance of small sums. It is the untrained children of the rich who blossom into wastrels.

Thrift is a habit, a character-forming habit. The boy or girl who deposits five cents every week without exception get more benefit than another who deposits a dollar at infrequent and irregular intervals. In the business of life, pay-day comes once a week, or once a month. The man or woman who banks a stated amount, large or small, on each pay-day is on the road to success, and the boy or girl who makes this a habit early in life is almost certain to succeed.

Here in the West, the same principle is being applied in some schools by many individual families. The boys or girls who have a pig, a calf, a setting of eggs, for their very own on the understanding that they look after them, and the increase and profits are theirs. In this way, the boys and girls not only develop a greater love for animals and learn invaluable lessons as to their proper care and feeding, but they also learn farm home and agricultural pursuits generally in a practical and interested way. And if the profits from the handling of their own pigs or livestock are carefully placed in a savings account, or are used to add to their holdings, it will not be many years before these boys and girls accumulate a respectable bank account, which will prove a further incentive to careful management, and a training through actual experience, which will prove of undoubted value to them throughout life.

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nervilene

Those who have tested out numerous liniments will agree that where there is pain it is difficult to dispense with a deep-seated, more or less chronic condition there is nothing to compare with Nervilene. It's because Nervilene penetrates so deeply, because it has the power of passing through ordinary cell preparation, it has come to be known as King over all Pain. For rheumatic conditions, muscular and joint stiffness, Nervilene works wonders. Get a bottle. Get a bottle. Get a bottle from your dealer today.

Alberta Honey Producers
The Alberta Government has about two hundred names on its list of bee keepers. These in 1925 were responsible for the production of about 115,000 pounds of honey.

In Accordance With Old Danish Tradition

Coffin of Queen Alexandra Still Exposed to View

That the coffin containing the remains of Queen Alexandra is lying undisturbed and exposed view before the altar in the Albert Memorial Chapel at Windsor is strictly in accordance with Danish tradition, has, curiously, passed without comment in the newspapers. In the case of Queen Alexandra, its position was not arranged, and is only of a temporary character; but in Roskilde Cathedral, the Westminster Abbey of Denmark, where almost all the Danish sovereigns from Harold I, who died in 882 A.D., to King Frederick VIII, who died in 1912, are buried, only the later kings reigned in side chapels, quite uncovered and open to inspection by visitors.

Prospects of a year's walk back to civilization should his Fokker airplane "go dead" while on its flight across the North Pole, are not worrying Carl Ben Eielson, University of North Dakota graduate, who is to pilot the plane on the proposed Wilkins expedition flight.

"We will be in the air about 23 hours before we reach Spitzbergen, according to our computations, but we will be in constant communication with the ground. We will have to walk back from somewhere in that unexplored land," Eielson said as he left for Point Barrow, Alaska, to join the expedition.

The principal object of the expedition is to ascertain whether or not there is undiscovered land north of Point Barrow, "America's farthest north."

"When the honfop comes from Point Barrow north," Eielson said, "the captain, George Wilkins, of the expedition, has left orders that in case we do not show up no relief expedition is to be sent out for at least two years."

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Says It Is Hereditary

Convinced By Experiment Cancer Is Not a Germ Disease

After experimenting 16 years with more than 50,000 mice, Miss Maude Slye, associate professor at the University of Chicago, is convinced that cancer is not a germ disease, but is hereditary, and that resistance as well as susceptibility to the disease may be inherited.

Her experiments indicate that avoiding chronic irritation of susceptible tissues will do much toward avoiding cancer.

Twenty Years Ago

So Says Mrs. A. Demers of Dodd's Kidney Pills

She Had Suffered From Lumbago and Indigestion and Found Relief in Dodd's Kidney Pills

Ottawa, Ont.—(Special)—"Twenty years ago I was very sick with indigestion and lumbago," states Mrs. A. Demers, who lives at 520 Clarence Street, Ottawa, and whose husband has been using Dodd's Kidney Pills for 20 years.

"I was a widow at the time and my husband seemed to relieve me. I started taking Dodd's Kidney Pills. After three months I noticed a great change and I am still taking them to this day. I feel fine at 65 years of age. I never feel a pain or even a tiredness in my back. I take Dodd's Kidney Pills and get better. I highly recommend your pills which should be taken continually until relieved."

Dodd's Kidney Pills make healthy kidneys strong and the muscles all strong and healthy. They are a great aid to health. Give them a trial at a nominal price. They can be obtained from all drugists.

From Underground Spring

Presence of Fish in Pond Mystifies Dakota Farmers

Fish measuring two inches have been found on the farm of John O'Hagan, near Omemee, N.D. Farmers in the neighborhood are mystified because the pond, which has not yet been fished, is full of fish and apparently two years old. The fish are a great aid to health. They can be obtained from all drugists.

Her Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George N.S., writes: "I suffered from palpitation of heart, fainting spells, and at times, I could not sit up at all. I was so nervous."

My trouble was caused from over-work and worry, living in a house with a large family.

I had tried everything without any result. Then I know, today, that I would have been a nervous wreck but for your wonderful

These Pills are for sale at all drug stores and dealers; put up by the T. Milburn Co., Limited, Toronto, Ont.

North Pole Flight

Visitors to Carry Provisions to Last a Year

VICK'S VAPORUM

Will Unveil Effigy Of King Edward

Of King Edward

Will See Figures of Queen Alexandra at Sainte-Tere

Alexander at Sainte-Tere

When the reigning effigy of King Edward in St. George's Chapel, Windsor, is formally unveiled, the effigy of his Queen will be revealed to the public at the same time.

The figure of King Edward has been covered up with a flag for several years. The slab for the companion figure of Queen Alexandra adjoins it.

"It is impossible to say when the unveiling will take place," the sculptor, Sir Bertram Mackennal, said, when interviewed. "For five years repairs have been in progress to the roof of St. George's Chapel, and until the renovations are completed it will be impossible to unveil the figures for fear of injury."

Few people knew at the time that Sir Bertram executed the figure of King Edward, for St. George's Chapel he designed a similar figure of the Queen under the personal supervision of Queen Alexandra herself. It shows her in her coronation robes.

**A SQUARE PEG
in a Round Hole**

You may be alright, but if
you are in the wrong position
you can't make a square peg in a
round hole. You can't want a position
where you fit.

This paper is read by intelligent business men, and a
Want Ad. in our classified columns will reach them.

Around the Town

Miss Hewson is visiting her
sister, Mrs. W. G. Walker.

Miss McDonald has returned
from a visit to Edmonton.

Mr. R. Thwaites has returned
from Big Valley.

Miss McGhee, of Bawlf, is vis-
iting friends in town.

Miss M. Symons, of Edmonton,
is a guest of Mrs. Smathers.

Miss Albright, of Edmonton,
is visiting Mrs. McCormick.

are spending a few days in Cal-
gary.

Mrs. E. B. Martin and family
were the guests, last week, of
Mrs. C. Thomas.

Miss Viola McGowan of Ardley,
visited with her aunt, Mrs. N. Suy-
ter, last week.

Miss Brown of Stettler, is spend-
ing her vacation at the home of Mrs.
S. Roper.

Master Hamby, of Red Deer,
was a guest at the Bryan home
last week.

H. W. Panicker has sold his
business to G. Shirvel, of Ed-
monton.

Mrs. A. Moller, accompanied by
Doris and Sydnie, are visiting
her sister, Mrs. Stenlund, at
Donald.

The United Church services
for next Sunday are as follows:
Lake Bend at 2:30; Mirror at
7:30.

Miss Mae Emerson and Mr. L.
Holmes, of Lacombe, spent the
week-end with Mrs. Holmes, in the
Ripley district.

Rev. Lytle, representing the
Bible Society, occupied the pul-
pit of the United Church Sun-
day evening.

Mr. and Mrs. F. Jaynes left
today for Lloydminster, having
sold his business to Jens Christ-
ensen, of Edmonton.

The Trail Rangers lost out in
the baseball tournament at
Alix on Friday, being defeated by
Erskine 8 to 5.

month.

Ripley Ladies Aid—meets 3rd
Thursday of each month.

Lake Bend Community Club
last Wednesday of each month.

Junior Red Cross every Wed-
nesday at 4 p.m. at the refoory.

Wedding Bells**HOLMES—Boyn**

The Baptists' camp at Gulf
Lake was the scene of a very
pretty wedding on Thursday,
August 5, when Evelyn Saun-
ders Boyd, of St. John, N.B.,

was united in marriage to Eld-
er Taylor Holmes, of Mirror
Alberta. The Rev. C. A. Bing-
ham, of Edmonton, officiated.

The Memorial Hall was beau-
tifully decorated with wild flowers
and foliage by the girls of
the camp. The bride was at-
tended by Miss Maud Hilton of
Calgary, and proceeded down
the aisle to the strains of the
Bridal Chorus from Lehengrin,

played by Miss Audrey Young
of Calgary. The bridegroom
was attended by his brother
Lawrence E. Holmes, of La-
combe, Alberta, and the cere-
mony took place beneath a flor-
iture arch.

During the signing of the
register, a solo entitled "At Ev-
eride" was beautifully sung by
Miss Helen Armstrong of Cal-
gary.

Following the ceremony a re-
ception was held in the summer
home of Mr. and Mrs. George Hill.
The cottage was delightfully
decorated with sweet pens and
gypsophila.

The guests were Miss Laura
Alyn, of Pithampur, India;
Rev. and Mrs. A. C. Bingham
and Mrs. J. McLeamy, of Ed-
monton; Mrs. B. S. Cameron of
Lacombe, and Mrs. T. Underwood,
Mrs. A. Spaine, Miss Avery
Young, Mrs. Gov. Avery
and Miss Helen Armstrong, of
Calgary.

Mr. and Mrs. Holmes left on
a motor trip. They will later
take up their residence near
Miracle, Alberta.

Before leaving on their trip
the bridegroom made a donation
to the camp of sliding cur-
tains for the assembly hall.—
Edmonton Journal.

The Trail Rangers lost out in
the baseball tournament at
Alix on Friday, being defeated by
Erskine 8 to 5.

Mr. and Mrs. T. Rydher, accom-
panied by their daughter, of
Vancouver Island, are spend-
ing their holidays with their
daughter, Mr. Geo. Peterson.
